Skills

Languages: c++(Proficient), python , Javascript, SQL

Technologies & Tools: React.js, Node.js, Express.js ,MySQL , MongoDB , Rest API , Postman , vs code

Work Experience

HOPING MINDS

5 Months (Jan 2024-May 2024)

Full Stack Development training

Mohali

- Made a Password manager using MERN stack

A MERN-based password manager securely stores and organizes passwords. MongoDB stores encrypted data, Express.js manages server-side logic, React handles the user interface, and Node.js facilitates backend operations. It ensures robust security and user-friendly experience.

SOLITAIRE INFOSYS

2 Months (Jul 2022 – Aug2022)

Python Training

Mohali

- Made a virtual assistant using python and its libraries

A Python virtual assistant, powered by libraries like pyttsx, leverages natural language processing to interact with users, perform tasks, and provide information. It employs various Python libraries for voice synthesis, AI capabilities, and integration with external services, enhancing user experience and functionality.

Education

Bachelor of Technology (Computer Science)

(Aug 2020 – May 2024)

Grade – 8 CGPA

Course Work – Data Structures, Algorithm, OOPs, Computer Networks, Operating Systems, Database Management System

Project Work

PERSONAL PORTFOLIO

- Crafted a dynamic personal portfolio using HTML for structure, CSS for styling, and JavaScript for interactivity. Showcasing skills, projects, and achievements to make a compelling online presence.

MUSIC WEB APPLICATION

- Developed a Spotify clone using HTML for structure, CSS for styling, and JavaScript for functionality. Implemented features like audio playback controls, dynamic playlist rendering, and a responsive design for an immersive user experience. Replicated the visual aesthetic of Spotify, offering a seamless music streaming experience on the web.

Achievements

- Successfully completed C test organized at CEC by IIT Bombay.
- Solved 500+ coding problems on various platforms like Leetcode, Hackerrank, Codeforces.
- Several Monthly Leetcode Batches for consistency
- Hold a office position at college club for 8 months as community lead.
- Actively participated in programming events in college.
- Acted as a coordinator in various events and fests at college.
- Represented my school in children Science Congress in Hamirpur at District Level and won maths Olympiad in 2016.
